

ReThink Energy Florida Legacy Society

ReThink Energy Florida works to improve lives and community conditions by bringing people and resources together to focus on the local issues that matter most. We accomplish more than any individual / single agency can achieve. Collective power of personal giving, corporate participation expertise in the delivery of human services, the passion of volunteers and the work of like-minded organizations.

ReThink Energy Florida is active year round studying environmental needs, directing resources where they will accomplish the greatest benefit.

Looking at the spectrum of issues and needs effecting individuals, families and the community our strategy is to mobilize resources and align them for impact.

ReThink Energy Florida Legacy Society

The Legacy Society honors and recognizes individuals who have made a gift through endowment or a bequest to ReThink Energy Florida in perpetuity. Your generous gift leaves a meaningful imprint on our community for generations to come. While your foresight will have a critical impact on tomorrow, you also serve as encouragement and inspiration for others today. You can help ensure ReThink Energy Florida long-term impact through the establishment, over time, of a substantial endowment.

What Will Your Legacy be?

Our Goal is to build the assets through our planned giving program to ensure the continuity of ReThink Energy Florida.

Types of Gifts:

- Bequest
- Insurance
- Remainder Trust
- Stocks/Securities
- Real Estate
